

Hello!

We want to extend our gratitude for taking the time to learn about us, it is truly humbling. We acknowledge the weight of what you are experiencing and are sensitive to what may feel joyful for us is as equally as heartbreaking for you. Whether your heart leads you to consider us or not, we offer you our sincerest prayers no matter your decision.

Should you consider us, we hope to embark on an open adoption journey, with clear boundaries that honor your comfort and respect. Our purpose will be to provide a safe, nurturing home for your baby, infused with love and tender care. Your child will know you and their heritage well. We will raise them in a Christian home with God at the very center.

Adoption has been a lifelong and slow-burning passion for Sloane. This is a desire that we now share after experiencing years of infertility. We believe that adoption will fulfill our calling of parenthood and allow us the ability to share the immense love we can give.

From gatherings with loved ones, to hiking adventures, from fishing trips to sports games, we look forward to weaving new memories as a family.

We cannot wait to experience life through your child's eyes, and we promise to create a haven of love and adventure for your baby to grow and flourish.

MEET JORDAN

In Sloane's words: "Jordan is truly one of a kind and the size of his heart amazes me. The way he cares about me, his family, friends, patients, community, and animals takes a genuine type of love. It's near impossible to be around him and have a bad day, his lighthearted nature is infectious! Children adore him and if there is one thing he's meant for, it's to be a father. He's my best friend and I'm thankful to have him by my side."

Trying to catch the elusive world record walleye.

Camping in Moab!

Cooking brunch for family visitors.

More About Jordan:

When he is not taking care of patients in the clinic as a physician assistant you can find him farming, hunting, serving his local church, golfing, manicuring his lawn, putting together a puzzle, or being the couch coach for the Chicago Bears! Aside from these things, Jordan is a simple guy and his happiest self when spending time with family and friends.

MEET SLOANE

In Jordan's words: "Sloane is my opposite and better half. She has a reserved and quiet strength about her. While I'm known as the social butterfly, Sloane is the introvert. I love her quick wit and goofy humor and our countless inside jokes. The kindness she shows people, the way she loves others, and the depth of her faith has made me a better person. I love being married to her, she is truly my best friend!"

Career:
Sloane holds a bachelors of science in nursing with a background as a nurse in critical care, home health, and hospice.

In 2020, she switched gears and is now a business owner. This allows her the ability to be a stay-at-home parent when the time comes.

Our Journey to Adoption

First Date!

On a spring day in 2015 we had our first date! Over the next year we created many more memories.

Engaged!

After a year of dating we were engaged in 2016! Sloane moved from Nebraska to South Dakota shortly after.

Married!

In 2017 we got hitched! We are so thankful we've had these years to grow as a couple.

Recently!

In January of 2024 we purchased a farm. We look forward to creating a lifetime of memories here as a family!

Meet Our Pups!

Ernie, our big boy, is a gentle giant with a deep bark! He loves socks and walks!

Staley, our sweetie girl, is a snuggler! She loves birdwatching and kids!

Our Why:

Our desire to adopt is firmly rooted in the Gospel of Jesus Christ. As Christians, we believe this is the greatest adoption story ever told! Our why comes from the deepest love we know and could possibly give! The flame of adoption was sparked in Sloane's heart as a child. Now as a couple, through careful prayer and counsel, our hope for adoption has only strengthened.

In addition with the support of those around us, our ability to provide financially, physically, and emotionally is an integral part of the care and love we are able to pour in to your child. Until then, we wait in optimism for the day we get to be called "Mom and Dad."

fAMILY

If there is one thing we can stress most - it's that family is incredibly important to us!

Much of our travel time is spent visiting those we love!

If you choose us, we, and our families, cannot wait to bring you and your child into our fold with open arms.

One last Word,

We just want to say that if you made it this far, *thank you.*

If you've connected with us in any way, we realize how sacred that is. If you know we are not the right fit, we respect you just as much! Only you know what decision is best for your child.

We are going in to this with the hope that we will have a life long friendship together, if that is what you would like as well. What a precious gift that would be! Thanks again for your time, we look forward to meeting you!

**With gratitude,
Sloane and Jordan**

Thank you!
