

March 2, 2021

Dear Southern Hills Parents:

Southern Hills recently participated in a voluntary State program to test our childcare facility's drinking water for lead. This program was offered to all and childcare facilities in the state of South Dakota and it specifically tests water fixtures that provide drinking or cooking water to students.

We tested 14 water sources (2 samples from each source) at Southern Hills and here are the results.

- 28 sample(s) had water samples below 15 ppb
- 0 sample(s) had water samples above 15 ppb

If you would like to review the complete testing results or would like more information about the findings, please visit southdakota.120wateraudit.com.

Sincerely,

Kayla Enger
Infant/Toddler Program Supervisor

Caylene Huber
Preschool Program Supervisor

Megan Breitag
School Age Program Supervisor
