

Hello! We want to introduce ourselves; we are Lindsey and Landon. We are overjoyed that you have decided to learn a little more about us. We understand this step is not easy and we respect you and the decision you are making for your baby. For many years we have struggled with infertility and through it all, we have always thought adoption will be a part of our destiny. Our desire is to have an open relationship with you as we are on this path together. Sharing time with our families, camping and fishing, as well as celebrating holidays and special occasions, have brought us the hope of raising a family. We are privileged that you would consider us. Thank you for giving hope to families like ours!

Lindsey and Landon

Meet Lindsey and Landon

We have been married since 2009. Our quirky habits are what make our marriage successful. Landon loves to make jokes and Lindsey enjoys trying out new recipes. Landon says “Lindsey is so caring and will do anything to make everyone feel at home and comforted.” Lindsey says “Landon is a hands on do it yourself person and is always working to keep the house, camper and vehicles in good working order.”

Storm Chasing

Landon enjoys Storm Chasing, driving boats at Catfish Bay as well as his passion for Theatre Tech. He has spent years with each of these hobbies while working full time in Information Technology taking care of server infrastructure for large Sioux Falls companies. He also has started to work on model trains in his spare time, a hobby he once

enjoyed as a child with his father and grandfather. Landon is a curious George personality and is always observing everyone around him. This trait has made Landon very well rounded in troubleshooting, fixing, building and learning new ways to make things such as electronics, computers, vehicles etc. operate better. Landon's nickname has sometimes been "MacGyver" after the TV show for his creative ways of resolving every day items.

Lindsey has always enjoyed being active. The last three years she has participated in a co-ed church softball league playing second base. Camping/fishing has been a huge part of Lindsey's upbringing and taught her that spending time with each other is an important part of being a family. It is a family tradition to fish on the Missouri River at Platte, which Lindsey looks forward to carrying on. Lindsey enjoys cooking and watching different cooking shows. She gets ideas and tries new recipes all the time at home. She loves to volunteer for different activities around the Harrisburg community. Lindsey is well known from her work and volunteering and everyone appreciates what she does!

Home

We started dating when Landon was in the process of building a home. We have spent many wonderful years in this house and have continued to make it our home with improvements and projects. We live in a very quiet subdivision with peaceful pastures beyond our backyard, which bring the occasional hot air balloons! Our dogs, Drake and Abby love to chew on their dog bones and hang out together. They get a long great and we love taking them for walks and camping! One project we both worked on this past year was finishing our home theatre right before Christmas. It was Landon's dream for many years and we now enjoy popcorn, soft serve Ice Cream and many movies! Our desire is to have many more wonderful years in this home raising our family and making memories!
