Audit Narrative

Final Audit Report
Between April 16, 2018 and October 9, 2018 Lutheran Social Service (LSS) Arise Youth Center-West worked to complete corrective actions laid out in the Interim Audit Report and according to Auditor recommendations.

The agency was found to be out of compliance with sixteen (16) PREA Standards in the Interim Audit Report. On October 9, 2018 LSS provided the final supporting documentation needed to complete its corrective action plan. This documentation and other supporting evidence was reviewed for compliance purposes. On October 25, 2018 this Final Audit Report was completed demonstrating that Lutheran Social Services Arise Youth Center-West is in full compliance with all PREA Standards.

Interim Audit
Pre-Audit activity began approximately thirty (30) days prior to the on-site audit. Pre-audit activities consisted of reviewing the facility questionnaire with supplied documentation and working with the Agency-Wide PREA Coordinator to clarify any outstanding questions. The Arise Youth Center – West facility's PREA Audit was conducted February 26 – March 2, 2018. During this time period there were seven residents at the facility. Actions taken during this time period consisted of a facility tour, additional documentation review, witnessing staff procedures, conducting staff, contractor and resident interviews. Since the on-site facility audit additional information has been requested and received from the facility to clarify any outstanding questions. Further review of data gathered during pre-audit, audit and post audit phases has occurred resulting in this Auditor's Summary Report.

On April 16, 2018 additional supporting documentation along with additional information requested was submitted by Arise Youth Center - West for review and evaluation. The Arise Youth Center – West was found to have not met 16 PREA Standards. The following results are the findings based on the information gathered during this audit.

Facility Characteristics

Arise Youth Center – West is located in Rapid City South Dakota. This facility is under the oversite of Lutheran Social Services of South Dakota. Arise Youth Center – West is a staff secure facility consisting of one stand-alone building containing one living unit designed for 16 residents. This single building encompasses all resident programing, recreation, education and sleeping units. The 16 single bed living units surround a staff observation post providing clear lines of sight to rooms, restroom/shower rooms and program space. The education area is located adjacent to the living unit area. All areas of this facility are under video surveillance with the exception of the interior living units, restrooms and shower rooms. The population is coed and made up of 10 to 17-year-old residents with an average length of stay just over ten (10) days. The facility population at the time of audit was seven (7) residents.

The facility maintains no on-site medical or mental health services. In emergency situations facility staff may (if available) utilize the medical staff at the Pennington County Juvenile Services Center in the adjacent facility. Otherwise the facility utilizes Rapid City Regional Health Center located 2 miles from the facility. Forensic medical exams will be referred to the Children's Home Child Advocacy Center located 4.7 from the facility. Mental Health Services are provided by Lutheran Social Services staff that are not located full time in this facility.

Arise Youth Center – West does maintain two designated trained administrative investigators. Any criminal incidents of sexual abuse or sexual harassment are referred to investigators with the Rapid City Police Department or Pennington County Sheriff's Office and Child Protective Services.

Mark Kiepke is the facility's Program Director and acts as the facility's PREA Compliance Manager. Mr. Kiepke reports directly to Amy Witt who is the Senior Director of Children and Youth Services who also acts as the Agency Wide PREA Coordinator.

Lutheran Social Services (LSS) requires that this facility develop, document and comply with a staffing plan. Policy calls for deviations to be documented however, no deviations from the staffing plan were made within the last 12 months. Per policy, interviews and documentation review the facility maintains a 1:8 staff to resident ratio during waking hours and 1:16 during sleeping hours. To ensure that the facility complies with this standard the facility performs an annual staffing plan assessment. In order to maintain these ratios supervisors, hold over or call in staff.

As part of their corrective action plan policy has been developed pertaining to unannounced rounds. Policy specifies how and when these rounds will be completed including nights and weekends. The facility has also developed and has maintained a log since their on-site audit. This log documents who conducted rounds, date, time, facility activities and what staff were on duty. In addition, the facility has moved away from having staff on duty perform unannounced rounds. Procedure now is to have the Program Directors or designee conduct unannounced rounds.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Per the Privacy, Sensitivity and Respect Policy: Any form of pat down, strip search or body cavity search by agency staff is strictly prohibited. The facility does not allow any type of searches where staff are touching residents. Search procedures include removal of socks and shoes by the resident, turning out pockets & waistbands. These types of searches will always require two staff members. A search may also include a wand type metal detector. If more intrusive type searches are deemed necessary law enforcement would be contacted to perform them. Policy and interviews of both staff and residents support this practice.

The facility is equipped with single restrooms and showers so facility design aids residents in showering and performing bodily functions without being viewed by staff of the opposite gender. The facility also has policy in place that requires staff to both knock and announce their presence at residence rooms and restroom/shower rooms.

Policy prohibits staff from entering a resident's bedroom or restroom/shower room of the opposite gender unless accompanied by a staff member of the same gender as the resident. Policy also prohibits the searching or physically examining transgender or intersex residence for the sole purpose of determining genital status. These policies and practices were also supported by interviews.

The facility does not train staff on procedures to conduct cross-gender pat searches and searches of transgender and intersex residents. As stated above this facility does not physically search residence.

Lutheran Social Services (LSS) as part of their corrective action has clarified and made revisions to its existing policy. Policy now calls for the Program Director or Designee to contact any facility that abuse may have occurred in upon receipt of such a report by a resident. Policy also calls for a report to be made to the local child protection agency to ensure appropriate follow up actions occur. All of these notifications will be documented using an LSS Incident Reporting Form. If a reported incident involves a staff member and a resident from another facility the Program Director or Designee is required by policy to contact local law enforcement and/or child protection agencies. These notifications are also documented according to policy and will occur within the timeframe stipulated by PREA.

A written report time frame is addressed in the agency's Child Abuse and Neglect policy.

In addition to other corrective action revisions to this policy; the Program Director or Designee is responsible for contacting law enforcement or child protection agencies within 30 days to confirm the allegations have been investigated.

As part of its corrective action plan:

Lutheran Social Services (LSS) according to policy the administrative investigation process will be completed "as soon as possible". Furthermore, staff will only investigate allegation to the point of "potential abuse/neglect". At that point the agency's PREA investigator will contact law enforcement and/or Child Protective Services. These investigations include those received anonymously and from a third party.

Newly developed policy states that the agency will not terminate an investigation solely because the source of the report recants allegations or the alleged abuser/victim is no longer residing or employed by the agency.

As stated in policy Child Protective Services and/or law enforcement will conduct all criminal investigations and make the determination of prosecution referrals. Also according to policy agency investigators will assess the credibility of alleged victim, suspect or witness on an individual basis. LSS policy also does not require a resident who alleges sexual abuse to submit to a polygraph examination as a condition for proceeding with an investigation.

According to policy administrative investigations include an effort to determine whether staff actions or failures to act contributed to the abuse. Any administrative investigation or first responder report will include information on physical evidence, documentation and any other information or facts gained through initial investigation. All documentation is retained for as long as the alleged abuser resides in the program or is employed by the agency plus five years.

☒ **Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

If there is an administrative finding that a resident engaged in resident-on-resident sexual abuse law enforcement and child protective services would be contacted. Additional charges may be filed and the resident would be removed from the facility.

Disciplinary sanctions are commensurate with the nature of abuse committed, the resident's criminal history and sanctions imposed for similar offenses by other residents however, as stated above if the abuse is criminal, law enforcement and child protective services would be contacted. Additional charges may be filed and the resident would be removed from the facility.

According to policy Lutheran Social Services' (LSS) disciplinary process considers whether the resident's mental disability or mental illness contributed to his or her behavior when determining sanctions. LSS offers therapy, counseling or other interventions designed to address and correct underlying reasons or motivations for the abuse. LSS may also require participation in such interventions as a condition of access to any rewards-based behavior management system or other behavior-based incentives. LSS policy does not require such participation as a condition to access general programming or education. LSS facilities may discipline a resident for sexual contact with staff only upon a finding that the staff member did not consent to such contact.

It should be noted that Arise Youth Center – West does not utilize isolation or segregation as a disciplinary sanction.

Policy also states that for the purpose of disciplinary action a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred does not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.

Lutheran Social Services and its facilities prohibits all sexual activity between residents and may discipline residents for such activity. This is addressed in the resident handbook. Lutheran Social Services and its facilities will not however deem such activity as sexual abuse if it is determined that the activity was not coerced.
